

Per Stenius, Ph.D., Liekki Corporation

Dr. Per Stenius is the CEO of Liekki Corporation, located outside Helsinki, Finland. He received his M.Sc. and Ph.D. degree from Helsinki, University of Technology, Finland in 1992, and University of California, Santa Barbara in 1998, respectively. After working at McKinsey & Company and Stratos Ventures, he joined Liekki Corporation in 2003. At Liekki, he has focused on adapting optical fibers made with Liekki's proprietary Direct Nanoparticle Deposition technology to the rapidly growing high power lasers and amplifier markets. Dr. Stenius has over 20 papers in multiple fields including quantum optics, optical fibers, laser technology, as well as business building and strategy.
